Description

AdamsRite MS1850S Maximum Security Round Cylinder Hook Lock

The MS 1850S provides Maximum Security deadlocking for both aluminium swinging and sliding door applications.
The stainless steel bolt with alumina-ceramic core ensures positive locking into jamb or opposite leaf and offers
high security against cutting and jamb peeling. Accepts any standard mortice cylinder or thumbturn with MS cam.

Overall case size: 173mm x 25.4mm x 45.2mm
Backset Options: 22.2mm (7/8"), 24.6mm (31/32"), 28.6mm (1 1/8"), 38.1mm (1 1/2").
Case: Steel with corrosion-resistant plating.
Lock Bolt: 75mm x 15.9mm. 5 Ply Laminated Steel with patented Alumina-Ceramic Anti-Saw Core.
Bolt Throw: 20.6mm (Hookbolt).
Mechanism: Carbon Steel Actuating Mechanism.
Cylinder: Any standard 29.4mm (1 5/32") Mortice Cylinder or Thumbturn with MS cam.
Operation: 360 degree turn of key or thumbturn. Key only removable when bolt is positively locked or unlocked.

Door Type: Aluminium only.
Door Gap: Maximum 3mm.
