- Black Plate length 89mm
- Black Plate width 42mm
- Gearbox Length 61mm
- Gearbox Thickness 12mm
- Latch throw 11.5mm
- Single Gearbox only

### Handing Identification

The handing of the duraflex gearbox is identified on some versions with a coloured dot on the back of the black plate; a blue dot indicates a Left Hand gearbox and a red dot indicated a Right Hand Gearbox.

If there is no coloured dot on the black plate you will need to look at the window handle from the inside; if it points to the left when closed it is Left Hand, or if it points to the right when closed it is Right hand.
