## Description

### Securistyle Top Hung Timber Variant Friction Hinge Stays

Securistyle Top Hung Friction Hinges 13mm Stack Height For Use With Timber Windows  
Securistyle's range of friction hinges offer major advances in fitting, weather sealing and operational performance.

Manufactured from high quality stainless steel, the hinge is designed for high performance on wooden windows.

The pointed sash arm and nylon end cap together provide an excellent gasket compression and smooth engagement.

Available sizes: 10", 12", 16", and 20", with a 13 mm stack height.

Sold in pairs.
